DETAILED ACTION

This Office action is in response to applicant's amendment received on 12 April 2004.

Allowable Subject Matter

1. Claims 1-5, 7-28, 30-32, 35-44 are allowed.
2. The following is a statement of reasons for the indication of allowable subject matter:
 - Claims 1-5, 7, 12-14 are allowed because the prior art of record does not teach or suggest a method of polishing a substrate having a conductive material formed thereon that includes a ratio of retaining ring contact pressure to membrane pressure of more than 1.1:1, wherein the membrane pressure is about 2 psi or less, combined with a ratio of carrier head rotational speed to platen rotational speed that ranges from 2:1 to 12:1, and in combination with the other claim limitations;
 - Claim 8, 35-39 are allowed because the prior art of record does not teach or suggest a method of polishing a substrate having a conductive material formed

thereon that includes the step of accelerating the platen rotational speed and the carrier head rotational speed at a rate that ranges from 5 to 30 rpms per second, in combination with the other claim limitations;

- Claims 9-11, 21-28, 30-32, 40-44 are allowed because the prior art of record does not teach or suggest a method of polishing a substrate having a conductive material formed thereon that includes a retaining ring contact pressure that has a ratio of retaining ring contact pressure to membrane pressure of more than 1.1:1, combined with a second polishing pressure that is less than a first polishing pressure and a second platen rotational speed that is less than a first platen rotational speed, and in combination with the other claim limitations; and
- Claims 15-20 are allowed because the prior art of record does not teach or suggest a method of polishing a substrate having a conductive material formed thereon that includes a retaining ring contact pressure that exceeds a membrane pressure by 0.4 psi and also has a ratio of retaining ring contact pressure to membrane pressure of more than 1.1:1, combined with a first linear relative velocity that is more than 600 mm per second and a second linear relative linear velocity that is less than 600 mm per second, and in combination with the other claim limitations.
